

PROFESSIONAL SUMMARY

Senior Computer Engineering student at UCF with a 10-year professional track record in high-stakes, client-facing environments. Technically proficient in React, C, and Real-Time Embedded Systems (ESP32, MSP430). Combines a disciplined work ethic with a passion for AI-driven software development. Proven ability to lead small teams, manage complex workflows, and communicate technical concepts to diverse audiences.

EDUCATION

University of Central Florida	Orlando, Florida
Bachelor of Science in Computer Engineering	August/2026
- Relevant Coursework: Computer Science, Computer Networking, Embedded Systems, Object-Oriented Software Development - Dean’s List (Spring 2024) - Minor: Vietnamese	GPA: ~3.1
Seminole State of College	Sanford, Florida
Associate in Arts Degree	May/2021

PROJECT EXPERIENCE

Contact Manager Website Development: Processes for Object-Oriented Software Development	Summer/2025 - present
- Built responsive contact manager app with HTML, CSS, and JavaScript in a 3-member team. - Developed intuitive UI for adding, editing, searching, and deleting contacts, enhancing user experience. - Implemented data persistence using localStorage.	
Ingredients Imposter (React App): Processes for Object-Oriented Software Development.	Summer /2025 – present
- Co-developed React app with MongoDB backend and Google Cloud hosting. - Create a real time ingredient substitution engine based on category and nutritional matching - Automated CI/CD pipeline to streamline deployment processes.	
Microcontroller, Embedded System	August/2024-December/2024
- Programmed and debugged C code using Code Composer Studio (CCS). - Utilized MSP430 peripherals like timers for blinking effects - Implemented UART, I2C, SPI communication protocols for efficient device integration	
ESP-WROOM-32: Real-time System	
- Programmed and debugged real-time applications leveraging ESP-WROOM-32's dual-core architecture - Integrated peripheral interfaces for efficient communication and system control	

SKILLS

- Programming languages: C, Java, HTML - Software: Code Composer Studio (CCS), Visual Studio Code, MIPS, Multisim, Microsoft Office Suite - Language: Fluent in Vietnamese
